

Introducing

MSALIMS 2.0

A flexible, fast and more secure way to access your sample data

FULLY
CUSTOMISED API
INTEGRATIONS
reduces manual data
handling for clients

We are proud to unveil our proprietary Laboratory Information Management System (LIMS), designed and developed exclusively by MSALABS.

KEY FEATURES:

- **Customized API Integrations:** Tailored to your specific database requirements, minimizing manual data handling.
- **Real-Time Reporting:** Comprehensive and personalized reporting capabilities to empower informed decision-making.
- **Advanced Analytical Tools:** Utilize powerful tools for enhanced data analysis.
- **Upgraded Performance:** Improved speed, reliability, and security with an enhanced user interface for greater ease of use.
- **Workflow Management:** Inbuilt step-by-step workflow management to reduce human error.
- **Audit Trail Support:** Extensive data logs automatically generated for robust audit trails.

SEAMLESS INTEGRATION:

- **Instrument Compatibility:** Integrates with 28 analytical instruments, including PhotonAssay™.
- **Extensive Preparation and Analysis Codes:** Equipped with 175 preparation codes and 457 analysis codes to meet your analytical needs.

WHY CHOOSE MSALIMS 2.0?

- Enhance operational efficiency with reduced manual entries.
- Make data-driven decisions with real-time insights.
- Ensure compliance and accuracy with automated audit trails.
